Will the Minister for Education be pleased to state the steps being taken by the Government to improve standard of Education?

Sardar Aseff Ahmad Ali: (a) The Constitution of Pakistan puts education on the Concurrent List. Looking at the education sector vertically, Pakistan, like many other federal countries, has divided jurisdictional arrangements over educational matters. Under the current

arrangements, implementation of policies, quality assurance and administration of education are provincial matters, in this connection, Provincial Governments have made efforts during the recent years to improve quality of education by setting minimum standards.

As mentioned above, though education is on 'Concurrent List', however, Ministry of Education in consultation with Provincial Education Departments has taken following initiatives to improve the situation:—

- i. Teachers play vital role to ensure quality in any education system. Ministry of Education (MoE) along with Provincial Education Departments has started a mega project under Pak-Canada Debt Swap Program to provide quality training and education to teachers in all provinces, FATA, FANA and AJK.
- ii. MoE is also providing scholarships to deserving students of FATA. and Balochistan. Under this initiative students of FATA and Balochistan are enrolled in quality educational institutions all over the country and the Ministry provides them necessary financial support.
- iii. To impart quality education, Ministry of Education has setup 09 Cadet Colleges in various part of the country. Moreover, it is also in process of establishing 29 Cadet Colleges (**13 already approved and 16 under process for approval**) in the under developed and remote areas.
- iv. National Education Assessment System (NEAS) has been established, which provides regular feedback on the quality of education being provided by the public as well as private sector.
- v. Measures have also been taken to standardize examination systems by the various Boards of Intermediate and Secondary Education.
- vi. MoE has also launched a project to provide basic missing facilities in all the primary schools of Balochistan, NWFP and AJK to provide better learning environment.
- vii. Ministry of Education has also been working on the. development of accreditation and certification regime under Strengthening Teacher Education Program (STEP) project to improve the quality of teachers.
- viii. Additional teachers have been recruited to ensure the availability of teachers in all the schools. Efforts are made to make these recruitments on merit alone.
- ix. Revision of curriculum is also taking place and Ministry of Education has notified revised and up-dated curriculum of 25 subjects. Remaining subjects will also be notified soon to complete the revision of entire curriculum.
- x. Special emphasis has been given in the upcoming National Education Policy 2009 to institutionalize standard based education in the country. Following are few policy provisions which directly deal with the education-standards:

- The curriculum development and review process shall be standardized and institutionalized.
- National standards shall be developed to reduce the differences in quality across regions.
- A framework setting out the basic standards for school facilities and teaching aid materials be established by 2012.
- Government shall develop and enforce minimum quality standards for organisations involved in literacy programs.
- A National Education Standards Authority shall be established.
- Teacher training arrangements, accreditation and certification procedures shall be standardized and institutionalized.
