

SENATE SECRETARIAT

“QUESTIONS FOR ORAL ANSWERS AND THEIR REPLIES”

to be asked at a sitting of the Senate to be held on

Wednesday, the 30th October, 2013

DEFERRED QUESTIONS

- (i) Question Nos. 7, 9, 11-B : Originally set down for answering on 12th March, 2013
(91st Session)
- (ii) Question Nos. 6, 77, 78, : Originally set down for answering on 27th August, 2013 79, 80
and 83. (97th Session)
7. ***Mr. Nisar Muhammad:** (Notice received on 08-02-2013 at 14:00 p.m.)

Will the Minister for Defence be pleased to state:

- (a) *the number of drone attacks Made on Pakistan soil since 2008 with year-wise break-up; and*
- (b) *the number of civilian casualties and the number of terrorists killed in the said attacks with year-wise break up?*

Minister for Defence: (a) 317 drone strikes have been reported inside Pakistan since 2008. The year-wise break-up is as under :—

Year	Number of Drone Strikes

@16. ***Syeda Sughra Imam:** (Notice received on 24-06-2013 at 01:45 pm)

Will the the Minister for Defence be pleased to state the steps taken by the Government for seeking outstanding US Coalition Support Fund?

@ Transferred from Finance Division.

Minister for Defence: Against the CSF claims of US\$ 15825.957 M from Oct-01 to Sept-12, US Govt released US\$ 10453.640 M and remaining amount is outstanding. Continuous efforts are being made by JSHQ to clear the said amount. The delay is due to the procedural methodology of US authorities.

6. ***Eng. Malik Rashid Ahmed Khan:** (Notice received on 27-06-2013 at 3:40 pm)

Will the Minister for States and Frontier Regions be pleased to state:

- (a) *the mechanism devised by the Government to ascertain the capacity in terms of number of students who can get education from a primary school in FATA; and*
- (b) *the steps taken / being taken by the Government to improve education standard in FATA?*

Lt. Gen. (Retd.) Abdul Qadir Baloch: (a) According to exiting planning criteria, an area having 800 population is feasible for establishment of a primary school for enrollment of 80 students after its establishment/completion of development work and creation of 02 posts of PTC and a class IV position.

Population of area is ascertained on the basis of projected population census 1998. The Political Agent in consultation with the parliamentarian concerned identifies the site and the respective Agency Education Officer accords feasibility report for establishment of a primary school for approval by the competent forum.

(b) The present democratic Government and Ministry of Education and Training have taken the following steps for improving education standard in FATA:

- (i) Supply of Free Text Books in order to attract & increase the number of students.
- (ii) Initiation of scholarships to Girl students in order to enhance the female rate of literacy.
- (iii) Provision of free Oil & Biscuits as per UN/WFP to male and female primary children, while to female upto secondary schools.
- (iv) Conversion of male & female 116 primary & 59 High and Higher Secondary Schools to English Medium.

77. ***Mr. Farhatullah Babar:** (Notice received on 21-05-2013 at 14:30 p.m.)

Will the Minister for Defence be pleased to state:

- (a) *whether it is a fact that the Peshawar High Court has ruled on 6th December, 2012, to pay compensation to the decree holders of the land acquired for AFV Ranges in Nowshera, if so, the present status of implementation of the verdict; and*
- (b) *the time by which payments will be made to the affectees?*

Minister for Defence: (a) Yes, Peshawar High Court *vide* its Order dated 06 Dec 2012 ruled that “Notice. In the meanwhile, the appellant shall start payment of principal amount to the affectees while the status quo order shall be operative to the extent of 6% interest / markup”. GHQ has demanded the amount of Rs. 1.56 Billions for payment. Ministry of Finance was approached for the same who have advised to submit a summary to the Economic Coordination Committee (ECC) of the Cabinet containing full justification of acquisition of land, its purpose of utilization and details of calculation of the required amount etc because a significant amount of additional allocation over & above Defence budget has been demanded. No source is available in the normal budget. If the same is accommodated in the normal budget, it will add to the budget deficit as well as bank borrowing during the current financial year.

(b) On receipt of the amount asked for, it will be placed at the disposal of MEO, Peshawar for conditionally depositing with the Nazir of Peshawar High Court to invest in some profitable schemes to accrue interest so that the deposited amount does not devalue with the passage of time. It is to be mentioned here that release of payment by Nazir of Peshawar High Court to the Land Acquisition Collector, Nowshera will be conditional subject to final verdict of Supreme Court of Pakistan in Review Petition No. 201 of 2013 filed by the Government/MEO Peshawar against Walayat Shah & others.

78. ***Mr. Hilal Ur Rehman:** (Notice received on 07-06-2013 at 3:06 pm)

Will the Minister for States and Frontier Region be pleased to state whether it is a fact that compensation has not been paid so far to the owners of land acquired by the

Government for construction of Ghallani Miangan Akhwanzadgan, Yousaf Khel Dam in Mohmand Agency, if so, the reasons thereof and the time by which it will be paid?

Lt. Gen. (Retd.) Abdul Qadir Baloch: Based on initial estimates prepared by the Political Naib Tehsildar, Halimzai, on 25-07-2009, FATA Development Authority (Executing Agency) provided Rs.1,82,60,000/- for disbursement to the affectees whose land was to be acquired. Detail of payment of compensation amount to the affected people is as follows:—

(i) Amount received by Political Administration from FATA Development Authority.	=	Rs.1,82,60,000/-
(ii) Amount disbursed amongst the owners of Land and Houses (<i>i.e</i> concerned affectees) as per break up given below:-		
(i) land Compensation	=	Rs.70,26,500/-
(ii) Kacha/Pakka Rooms	=	Rs.65,50,000/-
Total:-	=	Rs.1,35,76,500/-

However, there was a dispute over a piece of land measuring approximately 4 acres and 11 Marlas due to which payment of Rs.12,41,250/- could not be made. The dispute has been settled by a Jirga and as per Jirga verdict Rs.12,41,250/- have been paid amongst the concerned people. Copy of Jirga verdict dated 14-6- 2013 is attached. Therefore till date Rs. 1,48,17,750/- have been paid to the affected people.

It is further stated that some of the affectees were reluctant to receive the remaining amount of Rs. 34,42,250/- on the ground that the said amount was insufficient to compensate them as the then PNT Halimzai couldn't measure land properly and reported the irrigated land as 10 Acres while after proper measurement, the said land is 15 Acres instead of 10 Acres. Thus compensation for 5 acres of land which is in excess of allocated amount comes to Rs. 27,00,000/-.

A case for re-adjustment of Rs.27,00,000/- allocated for Government Girls Primary School has been taken up with FATA Development Authority. Payment to the affectees will be made as soon as possible on receipt of Funds from FDA.

79. ***Eng. Malik Rashid Ahmed Khan:** (Notice received on 27-06-2013 at 3:40 pm)

Will the Minister for States and Frontier Regions be pleased to state whether there is any proposal under consideration of the Government to explore / utilize natural resources / minerals in FATA, if so, its details?

Lt. Gen. (Retd.) Abdul Qadir Baloch: The Government of Pakistan is taking keen interest in the development of FATA. The exploration of natural resources/minerals is also one

of the key area of FATA development. The detail of those projects which have been planned and are under execution to utilize the mineral resources in FATA may be seen at **Annex-A**.

Annex-A

EXPLORATION PROJECTS PLANNED

1. **Exploration and evaluation of Precious Stones in Bajaur & Mohmand Agencies.**

In Bajaur and Mohmand Agencies, a number of precious stones like emerald, garnet, tourmaline and epidote have been identified. In order to further explore these stones, FATA DA initiated the subject project costing Rs. 42.076 million. So far regional and prospect scale geological map of 370 and 9 sq.km areas respectively have been prepared. Gem-bearing areas *i.e.*, Tora Tiga, Khazana Sar in Mohmand and Khan Salai, Amankot, Manasar in Bajaur Agency were delineated and sub surface investigation, have been conducted in Khan Salai, Amankot, Mana and Manro Pitao areas of Bajaur Agencies. Detail reports regarding Tora. Tiga area, Mohmand agency and Khan Salai area, Barang, Bajaur Agency provided to FATA Secretariat for possible investment by the interested firms.

2. **Investigation & evaluation of manganese prospects in Bajaur & Mohmand Agencies:**

Keeping in view the reported availability of Manganese in these two Agencies, FATA DA launched the project at a cost of Rs. 80.147 million for its detailed investigation and evaluation. Regional and prospect scale maps 890 and 9 sq. km areas respectively prepared. 31 trenches excavated and logged. 160 feet long adit driven on Takht Bajaur Agency and 500 meter core drilling conducted in prospective areas of Prang Ghar area. 0.1.20 million ton reserves proved at Takht and 29 more prospects identified in Mohmand & Bajaur with inferred reserves of 1.8 million tons. Agreement with a private investor signed for establishment of Ferro-Manganese Plant in Mohmand Marble City.

3 **Up-gradation of existing marble mines in FATA**

FATA, particularly Bajaur, Mohmand and Khyber Agencies, are rich in Marble mines. Approximately, 7000 million tonnes of marbles exists in FATA. The marbles found in these areas is of different color/ shades (white, gray, silver, badal, and black silky). About one million tonnes marble is mined in these three Agencies annually. However, primitive methods are used in mining. As a result, about 75% marble is wasted. To reduce this wastage and increase the life of the marble deposits, FATA Development Authority has planned to introduce mechanized mining by upgrading the two exiting marble mines in Bajaur and Mohmand Agencies in collaboration with Pakistan Stone Development Company. The process of procurement of machinery and equipment has been initiated at a cost of Rs.117 million. The machinery has been imported and is being installed on the identified sites, which will produce about 9000 tons marble blocks annually.

4. **Exploration and development of copper in N.W. Agency**

A resource of 35 million tons containing 0.8% copper exists in the Shinkai Area of North Waziristan Agency. In order to enhance the already known reserves to internationally acceptable magnitude of 80 million tons, further detailed surface/subsurface studies are being conducted under the subject scheme costing Rs. 172.722 million in collaboration with PMDC.

So far contour maps of 16 sq. km in Shinkai area on different scales have been prepared. Geochemical studies of rock and core samples have shown the presence of 0.2-1.7% copper, 0.26-0.81 ppm gold and 2.5% nickel. Geophysical survey has also been conducted on 3 copper prospects in Shinkai area. Twenty No. Geological cross sections of prospect 2&3 prepared and the available data of 33 drill holes has been computerized and interpreted for delineation of mineralized zones for future reserves calculation.

Due to unrest in the area, work of this project was suffered. However, with the help of locals and security forces, work on the scheme will be resumed shortly.

5. Source Rock Mapping & investigation of Hydrocarbon Potential in FATA

Keeping in view the presence of all the encouraging geological indicators in the tribal area for occurrence of oil & gas as elsewhere in the world and the recent discovery of hydrocarbon in the adjoining areas in Kohat and Suleman Basin and parts of Baluchistan, supported the idea of existence of both the source and petroleum reservoir rocks in FATA. FATA DA has launched the above mentioned scheme costing Rs. 80.237 million in collaboration with National Centre of Excellence in Geology, University of Peshawar, which will generate the basic data required to the Oil & Gas industry.

The available data of the area has been compiled and bibliography of the area completed. About 60% of the area has been mapped on scale 1:50,000. Initially 35 topo-sheets were scanned, cropped & geo-referenced. 26 topo-sheets were digitized. Contour maps of FR DI Khan, FR Tank and Kurram Agency were generated for structural interpretation. In addition, 42 well locations were plotted on regional geological map for designing Basin Line Chart and 12 rock samples analyzed for Total Organic Content and Eval Pyrolysis with encouraging hydrocarbon fertility & maturity results. The geological data so far generated was shared with the National and Multinational companies involved in oil & gas exploration in the country. As a result, 10 companies have got licenses of 17 blocks.

6. Exploration and Investigation of Precious/Base Metals in SWA

Restricted geological investigations in the western part of South Waziristan Agency indicated the presence of sulphide and other metallic minerals at more than 12 different places. Geochemical studies of the selected samples gave encouraging results and gold was reported in some samples for the first time.

Based on encouraging field and laboratory studies, FATA DA initiated the subject scheme costing Rs. 66.962 million to conduct detailed geological studies in the area to explore its mineral potential.

Scope of this project consists of geological map of about 1300 sq. kms on scale 1:50,000, while resource mapping on 1:10,000 scale with cross sections of mineralized zones will also be prepared. In order to know sub-surface behavior of the mineralization, geophysical survey and geochemical / petrographic studies will be conducted at promising points. This assignment is being completed in June, 2014.

7. Exploration/ Study of Coal in FATA.

The coal bearing rocks extensively extends through Central Kurram, Orakzai, Khyber and FR Kohat. Good quality coal to the tune of 0.360 million is annually extracted at different mining clusters in the areas. However, except a limited part of Orakzai Agency, the rest of the area has not been studied systematically to quantify the coal bearing formation and determine the actual coal potential of the area. Studies under the scheme costing Rs.136.641 million, which include geological, geophysical and selective drilling, will result in estimation of real potential of the coal bearing region. The scheme is being outsourced shortly. On the basis of workable reserves, projects like power generation and coal briquetting will be planned.

8. Metallic Mineral Exploration in Bajaur and Mohmand Agencies.

The eastern parts of Bajaur and Mohmand Agencies comprise rocks which carry loads of metallic minerals like chromite, manganese, iron ore, copper, gold silver and other rare earth metals at number of places in the world. In order to thoroughly search this zone and work out potential of such minerals, standard geological maps on different scales and geophysical/ geochemical survey is a prerequisite.

FATA DA has launched the scheme at a cost of Rs. 152.166 million to conduct the aforementioned studies.

9. Exploratory Core Drilling for Copper in Shinkai Area, NW Agency

In order to enhance the proven, copper reserves of 8 million tons to more than 50 million tons, 7000 meter core drilling is required. However, due to reluctance of private sector companies / contractors to work under the prevailing unfavorable law & order conditions in Shinkai area, North Waziristan Agency, the required drilling could not be conducted. FATA DA, as a last resort, approached Strategic Plans Division (SPD) for involvement of Pakistan Atomic Energy Commission (PAEC) to conduct the required drillings as PAEC has developed all the capabilities and expertise for such drilling activities. The PAEC agreed to conduct the drilling in two phases. Accordingly, FATA DA planned the subject scheme at a cost of Rs. 170.389 million to carry out 2500 meter core drilling in first phase in collaboration with PAEC. Core drilling constitutes an important component in reserves calculation of copper.

10. Construction of 71 km shingle roads in mineral bearing areas of FATA (under different schemes)

Construction of road is a pre-requisite to approach a mine. For this purpose, FATA DA has given priority to these roads so exploration work is carried out smoothly. It is an important

activity as most of the minerals identified in FATA are located in far flung and almost inaccessible corners. Improved infrastructure in mineral bearing areas has, therefore, been considered very crucial for accelerated exploration and development of the mineral potential. In this connection, FATA DA has launched a number of projects for construction of roads in different Agencies/FRs at total cost of Rs. 794.726 million. As a result of construction of these roads, different minerals bearing areas are made accessible.

Accordingly revenue on account of minerals royalty was generated. Construction of the remaining roads will further increase mineral production as well as revenue.

DEVELOPMENT PROJECTS

I. **Mining and processing of Soapstone in Kurram Agency**

Estimated reserves of 3.6 million tons, world class/ grade soapstone (talc) are available in Daradar and Gandao valleys of Kurram Agency, which has a great demand in the local and international markets. Kurram soapstone is famous for its quality and is comparable with any best soapstone in the world. The commodity has wide application in the manufacture of cosmetics, paper, medicine, automobiles, insecticides etc. Thus, apart from domestic consumption, Kurram soapstone has an extensive demand in the international market and thus is a potential source of foreign exchange earnings.

The soapstone bearing area is connected to Parachinar through 34 km road. Presently, two multinational companies have been awarded contracts for mining of soapstone in the area. However, there is still more scope of development and processing of soapstone in the Agency.

II. **Mining and processing of Manganese from Takht, Bajaur Agency**

FATA DA identified 0.120 million tons manganese reserves at Takht, Bajaur Agency and more than 1.800 million tons manganese resources in Prag Ghar, Sagi, Ambar and Qandari areas of Mohmand Agency. Takht prospect with 0.120 million ton reserves and 45-60% MnQ₂ (manganese dioxide) content was found most desirable for manufacturing of Ferro-manganese alloy. Successful laboratory and pilot plant scale studies were carried out for value addition of Takht manganese ore through manufacturing of ferromanganese alloy, using raw material from FATA. FATA DA has signed an agreement with private sector investor for mining and installation of a ferromanganese / silicomanganese manufacturing plant at Mohmand Marble City.

III **Establishment of Mohmand Marble City (MMC)**

The marble sector is serving as an engine of development, economic growth and poverty alleviation in FATA. About 7000 million tones proven reserves of good quality marble ranging from super white, silky and grey varieties exist in Bajaur and Mohmand Agencies. Currently about 1.500 million tones of marble is excavated from FATA annually. In order to utilize and process the extracted marble, as much as 350 marble processing units in and around Mohmand Agency have been established in different clusters, without any infrastructure facilities like

roads, water and regular power supply etc. As a result most of the units either remain closed or working much below their installed capacity. Realizing the hardships of the private sector, FATA DA planned to establish a model marble-processing zone with all the required infrastructure and social facilities. Accelerated work on different compartments including establishment of a dedicated Grid Station, external power distribution, transmission line, water supply & sanitation, boundary wall, security piquets and internal roads has been initiated. Keeping in view the expeditious progress on completion of development works, the private sector has shown a very positive response for investment in MMC. In addition to the above, minerals like marble, coal, chromite, managanese, soapstone, barite and gypsum etc. are extracted by the private sector investors.

80. ***Eng. Malik Rashid Ahmed Khan:** (Notice received on 27-06-2013 at 3:40 pm)

Will the Minister for States and Frontier Regions be pleased to state:

- (a) the number of teachers appointed in the Government educational institutions in FATA since 2010 with agency-wise break-up;*
- (b) the procedure adopted for the said appointments; and*
- (c) the names, parentage and place of domicile of the persons who applied for the said posts?*

Lt. Gen. (Retd.) Abdul Qadir Baloch: (a) The number of Teachers appointed is 571 (Male 363 and Female 208). Agency wise detail is at Annexure-A

(b) Recruitment policy of Government of KPK is also applied in FATA which includes the following steps.

1. All posts are advertised in the leading newspapers by the EDO of each agency and FRs.
2. Appointments are made by the Departmental Selection Committee at Agency/FRs level comprising of Senior Officers.
3. Proper interviews are conducted by the committee and merit lists are prepared duly signed by the members of the committee.
4. Selection of candidates is made purely on merit.

(c) Merit lists of candidates considered for recruitment by the selection committees of Bajaur, Mohmand, Khyber, Orakzai, & Kurram Agencies and FRs Peshawar, Kohat, Lakki, Tank, & D.I Khan are attached as Annexure-B.

(Annexures have been placed on the Table of the House as well as Library.)

83. ***Eng. Malik Rashid Ahmed Khan:** (Notice received on 02-07-2013 at 1:35 pm)

Will the Minister for States and Frontier Regions be pleased to state:

- (a) the names, educational qualifications and place of domicile of the persons appointed in health sector in FATA during the last two years;*
- (b) the procedure adopted for the said appointments; and*
- (c) the names, educational qualification and place of domicile of the persons who applied for the said posts but were not appointed?*

Lt. Gen. (Retd.) Abdul Qadir Baloch: (a) During the last two years the number of appointments made by the Health Directorate FATA in different categories is as under:—

I. Mohmand Agency	09 employees-detail at annexure-A
II. Khyber Agency	19 employees-detail at annexure-B
III. Kurram Agency	48 employees-detail at annexure-C
IV. N.W Agency	23 employees-detail at annexure-D
V. F.R Bannu	21 employees-detail at annexure-E

(b) The following procedure is adopted.

(i) For BPS 1 to 4, appointments are made through nomination by political Administration duly recommended by the Tribe/Malik who provided land for the facility.

(ii) For BPS 5 to 10, procedure is as follows:

- (a) Advertisement of Vacant posts in News papers.
- (b) Constitution of Departmental Selection Committee consisting of Agency Surgeon, Deputy Director Admn DHS FATA, Medical Superintendent, Additional Agency Surgeon, Agency Support Manager PPHI, Senior Women Medical Officer & Executive Monitoring & Evaluation Officer PPHI.
- (c) Conduct of interview and marks to the candidates according to the criteria.
- (d) Selection of Candidates on merit. (Urdu version is attached).

(c) (i) Mohmand Agency. As stated earlier appointed of BPS 1-4 employees were made on the recommendations of political Administration / Malik / Section of Tribe.

- (ii) Khyber Agency. List is at Annexure F
- (iii) Kurram Agency. List is at Annexure G
- (iv) NW Agency. List is at Annexure H

(v) F.R Bannu. As per point (i) above.

(Annexures have been placed on the Table of the House as well as Library.)

@7 ***Mr. Amar Jeet** : (Notice received on 02-09-2013 at 12:15 pm)

Will the Minister for Interior and Narcotics Control be pleased to state:

- (a) *the number of persons appointed on daily wages, contract and regular basis in Auqaf Department since 2008 with grade-wise break-up;*
- (b) *the number of the said persons who belong to minorities with province-wise and grade-wise breakup; and*
- (c) *the procedure adopted for the said appointments and the names of newspapers in which the vacancies were advertised?*

Chaudhry Nisar Ali Khan: (a) The details of persons appointed since 2008 is as under:—

i. Regular:		
Khateeb (BS-12)		05 persons
UDC (BS-09)	01 person	
Moazzin (BS-05)		11 persons
ii. Contract:

Moazzin (BS-05)		01 person
iii. Daily wages:		
Khateeb (BS-12)		04 persons
Moazzin (BS-05)		03 persons

(b) No person belonging to minorities was appointed in Augaf Directorate, ICT, Islamabad since 2008.

(c) The regular employees were appointed under Aghaz-e-Haqooq-e-Balochistan Package whereas the persons on contract basis were appointed after NOCs from Establishment Division and Finance Division. The vacancies were advertised in newspapers *i.e* Daily Nawa-e-Waqt, Islamabad, Daily Mashriq & Express, Quetta and Minority Times, Islamabad on 12-10-2011.

@ Transferred from Religious Affairs Division.

38. ***Mr. Abdul Rauf**: (Notice received on 02-09-2013 at 09:10 am)

Will the Minister for Railways be pleased to state:

- (a) *whether it is a fact that Hernai - Sibi railway section is not operational at present, if so, its reasons; and*
- (b) *whether there is any proposal under consideration of the Government to make the said section operational, if so, when?*

Khawaja Saad Rafique: (a) It is a fact that Hernai – Sibi Railway section is not operational at present. This section was operational upto February, 2006 when seven (07) major bridges of the section were blown by the terrorist, causing disruption of traffic and since then this track is not operational.

Since 2006, the flash floods have also damaged the Railway track and at present it is in very bad condition.

(b) At present there is no proposal under active consideration of the Government to make this section operational due to law and order situation in the area and huge investment required to re-construct the damaged bridges and rehabilitation of the Railway track.

50. ***Mrs. Kalsoom Parveen:** (Notice received on 10-09-2013 at 09:30 am)

Will the Minister for Railways be pleased to state:

(a) *the loss suffered by Pakistan Railways since June, 2013;*

(b) *the main reasons for the said loss; and*

(c) *the steps being taken by the Government to control the said loss?*

Khawaja Saad Rafique: (a) The final profit/loss will be determined after the closing of financial year on 30-06-2014 and be reflected in the financial statements accordingly. However, as per revenue reports pertaining to the period from 01-07-2013 to 30-09-2013, Pakistan Railways generated revenue as under:—

(Figures in Billion)

Target from 01-07-2013 to 30-09-2013	Revenue Generation from 01-07-2013 current 30-09-2013	Revenue Generation from 01-07-2013 Revenue 30-09-2013	Increase in Revenue over year's Target	Increase in Revenue over last year's of the Same period	to	to
4.864	5.559	3.892	0.695	1.667		

Due to better performance the estimated loss has been reduced as per detail below:

(Figures in Billion)

Estimated Loss for FY 2013-2014	Estimated Loss upto 30-09-2013	Actual Loss	Variation
33.5	10.09.	8.44	1.65

(b) The main reasons, for deficit to current financial year 2013-2014, are decrease in number of freight trains, non-availability of locomotives, increase in the rate of pay & pension, utility unit rates and fuel prices.

(c) The Ministry of Railways is making strenuous efforts to repair the locomotives and make them operational. Efforts are being made to purchase new locomotives under PSDP programme, get locomotives on lease / rent, and repair the defective locomotives, which will ultimately result in increasing the operational efficiency to overcome the deficit.

The passenger train operation has been capped at 96 for the time being and our focus is on restoring and increasing freight operation with better financial results. In the long run, a balance is likely to be created between passenger & freight operation leading to increase in revenue and reduction in deficit ultimately resulting in overcoming the deficit / loss.

51. *Mrs. Kalsoom Parveen: (Notice received on 11-09-2013 at 09:10 am)
