

(321st Session)

SENATE SECRETARIAT

“QUESTIONS FOR ORAL ANSWERS AND THEIR REPLIES”

to be asked at a sitting of the Senate to be held on

Tuesday, the 4th October, 2022

DEFERRED QUESTIONS

[Questions Nos. 13, 20, 21, 24, 26, 124, 125, 126, 34, 38 and 42 were deferred on 5th August, 2022 (319th Session)]

(Def.) *Question No. 13 **Senator Bahramand Khan Tangi:**
(Notice Received on 25/02/2022 at 10:10 AM) QID: 38866

Will the Minister Incharge of the Prime Minister's Office be pleased to state whether it is a fact that the Chinese investment in Pakistan has decreased during the last two years, if so, the details and reasons thereof?

Chaudhry Salik Hussain: Yes, the Chinese Investments in Pakistan has decreased by **29.27%** in last two years (**FY21- FY22**).

The details of Chinese Investments during the last two fiscal years, as received from State Bank of Pakistan are at **Annex-A**.

The decrease in Chinese investments is due to various reasons, including but not limited to:

- a. Covid-19 outbreak caused a sharp decline in global economic activity. As majority of Chinese Investments fall under the CPEC ambit, the economic disruptions and social restrictions caused by COVID-19 also impacted the pace of CPEC, thus impacting the overall Net FDI.

- b. The decrease in Chinese investments in the last two years is mainly due to the conclusion of CPEC Phase-I which has overall impacted the outlay of Chinese investments in Pakistan. Most of the early harvest projects under the first phase of CPEC relating to power and infrastructure have completed and CPEC is now set to enter the second phase which focuses on Industrial Cooperation which is a long-term endeavour and dependent on industrialization through industrial relocation from China, particularly in the Special Economic Zones (SEZs).
- c. However, it's very encouraging that with the operationalization of most of the SEZs in the past two years, and increase in investor interest to establish industry therein, besides other investors many Chinese origin companies have entered SEZs as enterprises thereby committing realization of investment within two years, as is stipulated in the SEZ Law.
- d. The decrease in Chinese investments in the last two years is also due to decrease in the FDI Inflows in the manufacturing sector; **Electrical Machinery (-73.96 percent) and Rubber and Rubber Products (-44.73 percent)** being the top two sectors with major decline. It may be noted that due to COVID-19, the manufacturing sector has been affected globally. The details of sector wise Chinese Investment of top five sectors during last two years are at **Annex-A** as per SBP data.
- e. To capitalize on the economic commonalities between the two countries, the focused 3 year rolling strategy is under development to connect the industrial potential of Pakistan with the Chinese counterpart. Within the framework of 3 year rolling strategy, BOI role is to attract efficiency seeking foreign investments that will help in knowledge transfer and export promotion.
- f. Despite all the aforementioned facts, the country-wise FDI data confirms that China has the largest share of foreign investment in Pakistan.

ANNEX-A

The details of Foreign Direct Investment (FDI) trends of Pakistan with respect to China and sector-wise Chinese investments are as below.

(Def.) *Question No. 24 **Senator Manzoor Ahmed:**

(Notice Received on 9/03/2022 at 2:20 PM) QID: 39078

Will the Minister for Law and Justice be pleased to state:

- (a) *whether it is a fact that there is no prescribed law for appointment of members of Civil Services as Judges of the High Courts under clause (2)(b) of Article 193 of the Constitution of Pakistan, if so, reasons thereof;*
- (b) *Whether it is also a fact that under the said clause of Article 193, appointments of Judges of High Court are not being made, if so, reasons thereof?*

Mr. Azam Nazeer Tarar: (a) The law does not specifically provide for initiating nomination for category of person eligible under Article 193(2)(b) of the Constitution of Islamic Republic of Pakistan for consideration of appointment as Judge of a High Court. The initiation of nomination and appointment of Judges of the High Courts rests with the Judicial Commission of Pakistan under Article 175A and, the Commission and/or Chairman has not prescribed or sought any requirement of enacting law for the purposes of Article 193(2)(b) of the Constitution of Islamic Republic of Pakistan from Ministry of Law and Justice.

(b) Pursuant to the Article 175A of the Constitution of Islamic Republic of Pakistan and the Judicial Commission of Pakistan Rules, 2010, the initiation of nomination for appointment of Judges of High Courts rests with the Chief Justice of the concerned High Court and therefore, this Ministry has no mandate to initiate, supervise and/or oversee such process.

(Notice Received on 25/08/2022 at 9:49 AM) QID: 39289

Will the Minister for Energy (Power Division) be pleased to state the details of quantum of electricity lost due to theft / illegal connections in the jurisdiction of PESCO during the last three years and the steps taken by the company to control the same?

Mr. Khurrum Dastagir Khan: The detail of Quantum of Electricity lost due to the theft/illegal connections (*i.e.* Administrative Loss) in the jurisdiction of PESCO during last three years is mentioned as under:

Year	%Age Losses (Administrative)
2018-19	16.16
2019-20	18.93
2020-21	18.25
2021-22 (Upto May)	17.62

To control the theft /eradication of direct hook etc., PESCO has taken various steps including:

- Three PESCO Police Stations have been established.
- More than 20,000 FIR's have been registered from 2013 to 2022. The detail on the year-wise quantum of FIRs registered against electricity pilferers is as under:

Period	Nos. of FIR's
01/2018 to 12/2018	3126
01/2019 to 12/2019	2001
01/2020 to 12/2020	4488

- Amount equivalent to Rs. 200 Million has been recovered through registration of FIRs. A Task Force has also been established for eradication of direct Hooks.
- In the last three years more than 70,000 consumers have been converted from hooks, tempered meters, sluggish meters to metered supply of electricity.

*Question No. 44 **Senator Seemee Ezdi:**

(Notice Received on 25/08/2022 at 10:06 AM) QID: 39228

Will the Minister for Energy (Power Division) be pleased to state:

- (a) total estimated biomass potential of Pakistan in GW h/year at present; and*
- (b) Whether it is a fact that bio-energy can impact global warming and greenhouse gas emission, if so the steps taken by the Government to make the best use of this technology in our country?*

Mr. Khurram Dastagir Khan: (a) In 2016, the World Bank through international consulting firms & in close coordination with the Alternative Energy Development Board (AEDB), launched the “**BIOMASS ATLAS FOR PAKISTAN**”.

The Atlas contains information related to biomass feedstock availability and the potential use of biomass feedstock for energy. The residues of five major crops (*i.e.* wheat, cotton, rice, sugarcane, and maize) were included in the Biomass Atlas. Both theoretical and technical potentials of crop residues were assessed through extensive surveys which shows a theoretical feedstock potential of about 25.3 million tons/year (**62,785 GWh/year of thermal energy**) for crop processing residues and 114 million tons/year (**456.440 GWh/year of thermal energy**) for crop harvesting residues. Based on the existing uses of the residues, the technical potential of crop harvesting residues was estimated at about 5.1 million tons/year (**96,890 GWh/year of thermal energy**). The detail of the theoretical potential of different biomass residue is as under:

(The country-level annual theoretical potential of crop processing residues)

Types of residues	Annual production of residues (1000' tons)	Energy content of residues (GWh of thermal energy)
Bagasse	19,577	40,720
Rice husk	3,351	12,566
Maize cob	1,406	6,481
Maize husk	937	3,018
Total	25,271	62,785

(The country-level annual theoretical potential of crop harvesting residues)

Type of residues	Annual production of residues (1000' tons)	Energy content of residues (GWh of thermal energy)
Cotton stalk	49,405	206,020
Wheat straw	34,581	138,325
Rice straw	16,754	58,138
Sugarcane trash	7,831	29,835
Maize stalk	5,325	24,124
Total	113,896	456,442

(b) Burning, biomass releases carbon dioxide (CO₂), a greenhouse gas. However, the plants that are the source of biomass for energy capture almost the same amount of CO₂ through photosynthesis while growing as is released when biomass is burned, which makes biomass a carbon-neutral energy source. Presently, 08 bagasse-based power generation projects of sugar mills are connected with the National Grid having a cumulative capacity of 259 MW. All these projects have performed the necessary environmental impact assessment study & have obtained the required clearance from the relevant environmental protection agency. Moreover, the Government of Pakistan in the year 2020 approved the Alternative & Renewable Energy (ARE) Policy 2019 which allows the generation of energy from many ARE sources, including biomass through competitive bidding, Government to Government agreements & unsolicited mode. As per the ARE Policy 2019, wind, solar & bagasse are declared as mature technologies, and therefore all future energy procurements of said technologies will be made through a competitive bidding process as per the quantum allowed under the indicative Generation Capacity Expansion Plan (IFCEP). The present IGCEP (2021-2030) has no quantum for the future biomass-based project(s) as it does not meet the principle of “least cost” energy procurement.

***Question No. 47 Senator Fawzia Arshad:**

(Notice Received on 29/08/2022 at 10:05 AM) QID: 39613

Will the Minister for Human Rights be pleased to state whether it is a fact that the Government has constituted National Commission for implementation of United Nations Convention on the Right of Persons with Disabilities under the Chair of Federal Minister for Human Rights, if so, the details of steps taken / being taken by the said Commission for protection and rehabilitation of persons with disabilities?

Mian Riaz Hussain Pirzada: Instead of a Commission, a National Committee has been constituted by MoHR to facilitate implementation of UN Convention on the Rights of Persons with Disabilities.

As part of efforts/initiatives taken by the National Committee following actions have been taken to protect the rights of Persons with Disabilities (PWDs):

- i. The ICT Rights of Persons with Disability Act, 2020 has been enacted. This Act provides legal and institutional framework for an inclusive society where PWDs have full participation in all forms of social life, particularly in health, education and employment. The major aim of this law is to ensure rehabilitation of PWDs through protection and promotion of their rights. Council of Rights of Persons with Disability (CRPD) has been constituted under the law.
- ii. “Punjab Empowerment of Persons with Different Abilities Bill, 2022”, “Khyber Pakhtunkhwa Empowerment of Persons with Disabilities Bill, 2022” are two draft legislations under final stages of approval and enactment in Punjab and Khyber Pakhtunkhwa.
- iii. The Committee also suggested better implementation of laws in Sindh and Balochistan for protection of rights of persons with disabilities (PWDs). These laws include, the Sindh Empowerment of Persons with Disabilities Act, 2018 which repealed the ‘Differently Abled Persons Act, 2014’. Similarly, Balochistan Assembly has promulgated Balochistan Persons with Disabilities Act, 2017 to promote and ensure full and effective inclusion of persons with disabilities in the community in line with the Islamic teachings and international best practices to protect their rights.
- iv. Final Review of Incheon Strategy has been submitted by Pakistan in 2022. Incheon Strategy is one of the international obligations which outlines 10 disabilities inclusive development goals, 27 targets and 62 indicators to be met by 2022. The National Committee helped in collection of data for the Final Review.
