**GOVERNMENT OF PAKISTAN  
NATIONAL COUNTER TERRORISM AUTHORITY**

Subject: **Senate Starred Question (333<sup>rd</sup> Session) List No. 4**

Please refer to part (b) of the Senate Question No. 90 by Dr. Zarqa Suhrawardy Taimur vide reference number 14/14/2023-(Council)(333) dated 03.11.2023 communicated to the undersigned via WhatsApp on 06.11.2023 on the subject.

2. It is stated that in order to curtail the increasing incidents of terrorism, the Law Enforcement Agencies (LEAs) including CTDs and NACTA have been actively monitoring the situation. In this regard, the level of coordination between federal and provincial/regional governments is being strengthened to identify actionable areas for creation of harmony in counter terrorism efforts. In this regard, the input available in this Branch is as under:

**Security Landscape**

US troops withdrawal from Afghanistan and inaction of Interim Afghan Govt. (IAG) against TTP offered it an opportunity to increase its influence, presence and activities. During the Peace Talks, it re-organized and enhanced its operational outreach. It has given significant rise to its activities and is seeking support of other militant groups to increase strength and capabilities. It is mostly concentrated in KP especially Merged Districts with footprints in Balochistan and trying to activate its network in the country. Arrival of *tashkeels* of TTP in significant numbers continue in Merged Districts along with recruitment, training and placing of suicide bombers is a cause of concern. DAESH is also trying to establish foothold in Pakistan. It resorts to terrorist activities against Shias and minorities to ignite sectarian strife.

**Steps taken by the Government**

• **Fencing Along Western Border**

The work on the fencing along with the western borders of Pakistan has largely been completed to further strengthen the State mechanism of curbing the illegal movement from across the border. It is worth mentioning that the above-mentioned organizations, in particular TTP, continue to sabotage the fencing.

• **Registration of Refugees**

Among 1.4 million registered refugees, data of 1.45 million was updated and expanded as a result of DRIVE through issuance of smart identity cards. The cards contain basic information including biometric data and are compatible with the local systems. The rationale for the process of updation and documentation includes strict monitoring mechanism over the individuals involved in criminal and terrorist activities.

• **Dismantling the communication networks to combat online extremism**

Pakistan Telecommunication Authority (PTA) remained active to effectively monitor cyberspace. A total number of 16522 complaints were forwarded to social media platforms for blocking of radical / sectarian, anti-state and terrorist content by Pakistan Telecommunication Authority during the year 2022.

There has been 136.4pc increase in overall compliance made by SMCs during the period under review as compared to 2022: the compliance rate during the first half of 2023 was recorded as 61.9pc as compared to 2022 when it was 26.2pc. Moreover, the data indicates that the compliance by Twitter has increased by 392.4pc, Facebook by 139.2pc and YouTube and Instagram by 72.7pc, in connection with blocking of content based on hate speech, radicalism, sectarianism and terrorism.

No. CDA-DA (General) (1206\*)/2017/ 87

Islamabad, January 27, 2017.

From: Asif Javaid Shahjahan,  
(Tamgha-e-Imtiaz)  
Director General Administration,

To: The Inspector General Police  
ICT, Islamabad.

Subject: VACATION OF G-6 FLATS, ILLEGALLY OCCUPIED & TRESPASSED  
BY ICT POLICE OFFICIALS.

Dear Sir,

I am directed to refer to the subject noted above and to state that the Cabinet had decided in its meeting dated 13.03.1995 to re-develop the Sector G-6. In order to initiate the process, CDA was directed to construct 200 Nos A-Type multi story flats on open land available at the three different locations in sector G-6. The work was started in June 1995 with a completion period of 18 months. CDA spent an amount of Rs.151 million for the construction of 200 flats in G-6, Islamabad as directed by the Government. The flats were completed in August 2003. The flats were constructed as alternate accommodation arrangement of detracted accommodation of old A&B quarters in sector G-6 which were to be demolished for construction of new Government accommodations. But the scheme could not be matured for one or the other reasons for considerable time. These flats were occupied by Earthquake effectees in October, 2005 which were got vacated in January 2007.

2. During the year 2007, the incident of Lal Masjid operation took place in Islamabad and it was decided that all the police officials be accommodated in the vacant residential accommodations due to presence of police in the vicinity of Lal Masjid round the clock. Afterward, the situation changed, these officials refused to vacate these flats and a series of litigation started. The Honorable Supreme Court has recently in its judgment remanded back these cases to Honorable Islamabad High Court.

3. It is a matter of fact and evident from record that CDA is sole owner/proprietor of Land and constructed flats. Neither Ministry of Housing bothers to pay including land and construction cost nor any rental ceiling to CDA. Even that CDA deprived its own bonafide employees from the legitimate accommodation, having a large numbers of employees on its strength. At present, majority of flats have been occupied by Islamabad Police, About 130 illegal occupants from Islamabad police are residing in these flats.

On 1<sup>st</sup> / 11/2019, the Sub-Committee of the National Assembly Standing Committee on Housing & Works, it was directed by the Committee that the Police Department may be asked to immediately vacate these flats from their officials and necessary disciplinary proceeding should also be initiated against these illegal occupants of the flats.

6. It is therefore requested that kindly direct your officials to vacate immediately these trespassed flats and hand over their peaceful possession to ODA Enquiry within a week time. List of illegal occupants / trespasser of your department officials has already been provided by the Estate office. An early compliance of the Sub-Committee on Standing Committee of (H&W) of National Assembly Government of Pakistan's directions will highly be appreciated.

Yours Sincerely,

filed by the respondents police officials, were allowed with the following observations:-

*One of the contentions of respondents is that the petitioners had forcibly occupied Govt. accommodations and if the same are regularized, then it would become regular practice that people will forcibly occupy Govt. accommodation and then approach the Court for regularization of allotment. It was, therefore, submitted that petitioners be asked to vacate the accommodations first. This controversy cannot be resolved at this stage for the reason that the contention of petitioners is that they were in permissive possession of the houses, as because of law and order situation they had been accommodated in the disputed houses. In order to resolve the controversy, evidence would be required, which is not possible in writ jurisdiction. The only argument of the respondents is that since the petitioners are not in possession of any allotment order, therefore, they are trespassers. Although, there is no allotment order in possession of the petitioners, yet in view of their own contention, it cannot be held that they had forcibly occupied disputed houses. Furthermore, the learned Deputy Attorney General contended that at the time of Lal Masjid operation, they were not allotted houses, rather the police officials were accommodated for certain time and their families were never accommodated in these houses. This assertion too, would require evidence for proof. Moreover the same is indirect admission of permissive possession. There is however, no denial of the fact that there is no proper allotment order in favour of petitioners and the grievance of petitioners regarding proper allotment order is required to be settled once for all.*

*In view of the above mentioned facts, the respondent No. 2 & 3 are directed to consider the applications of the petitioners for allotment of residential accommodation with effect from the date each petitioner is in possession of the respective accommodation. The petitioners be treated at par with all other police employees of the same category, who have been allotted houses. In the above terms, these writ petitions stand disposed of.*

3. Learned counsel for the appellant CDA contends that the respondents police officials have forcibly occupied the flats under the garb of Lal Masjid operation, constructed by the CDA, despite the fact that those flats have never been allotted to the police officials neither they are eligible under any law to retain the possession of the subject flats. It has further been contended

8. It has not been denied by the Police Department that the apex court in HRC Nos.20746, 30827-P, 30588-S and 30001-K/2018 has passed the orders for vacation of all the government quarters of Estate Office from the employees of Police Department on the statement of Inspector General Police as the police officials are not eligible to retain the Government Accommodation in terms of Accommodation Allocation Rules 2002.

9. We have gone through the judgment rendered by the learned Judge in Chambers, whereby it has been observed that learned Judge has not considered the law on the subject and passed the impugned judgment without any justifiable legal basis, such order could not be passed under constitutional mandate in terms of Article 199 of the Constitution of Islamic Republic of Pakistan, 1973, where no legal right has been established in favour of the respondents nor demonstrated in any manner.

10. In view of above, all the captioned appeals are **ALLOWED** and the impugned order dated 13.04.2011 is hereby **SET-ASIDE**. The Inspector General of Police as well as Secretary, Ministry of Interior are directed to register the criminal cases against all the officials/employees of Police Department, who have illegally occupied the flats by force with further direction to Inspector General of Police, Islamabad to initiate departmental action against all the occupants on departmental side and shall submit a compliance report before this Court within period of one (01) month, failing which, Secretary Ministry of Interior and Inspector General of Police shall be dealt strictly in accordance with the law.

*Will the Minister for Interior be pleased to state whether there is any proposal under consideration of Government to install fencing on both sides of the Margalla Avenue, to avoid accidents, if so, when?*

**Minister for Interior:** It is explained that as per Master Plan, Margalla Avenue is a principal road and will provide access to the planned CDA Sectors and Service Roads. There are CDA Sectors along Margalla Avenue i.e. D-12, C-13, C-14, C-15 and C-16 hence there is no requirement to install fence on the southern side. However, fence is being installed on the northern side of Margalla Avenue through the Contractor M/s FWO and as of now around 50% length has been fenced to protect CDA's land from encroachment. Agitation and resistance from local populations have been faced at some locations while installing the fence. Efforts are under way to resolve such issues so that the northern side could be fenced in full length.

(Notice Received on 12/10/2023 at 11:16 AM) QID: 41664

*Will the Minister for Railways be pleased to state whether railway has taken any austerity measures in view of its increasing losses during the last three years, if so, the details thereof?*

**Mr. Shahid Ashraf Tarar:** Pakistan Railways has taken certain austerity measures to moderate its losses. All these austerity measures have been taken in line with the instructions issued by Finance Division from time to time.

In addition to austerity measures, Pakistan Railways has rigorously followed a diversified approach for reducing its different costs alongwith measures to improve its revenue streams. Following plans have been adopted for reducing the costs.

1. Electric meters of residential colonies are being shifted to DISCOs. A total of 16535 out of 26,660 have been shifted to DISCOs and K-electric to rationalize its expenditure on utilities. This step has resulted in saving of Rs. 1300 million so far.

2. In order to further reduce the electricity bills, Pakistan Railways has prepared a plan to shift on solar energy. The work has initiated by awarding the feasibility study to M/s NESPAK. 100 sites with heavy consumption of electricity have been identified and once shifted to solar energy, it will result in to savings of Rs.1,000 million.

3. The present fuel bill for trains exceed Rs.24 Billion per year. Pakistan Railways has planned for automating its Fuel Management System for which EOI was called for in October, 2023. This system is bound to bring better efficiency and operational fuel conservation and it is estimated that about 20% fuel bill will be reduced.

4. At present, Pakistan Railways purchases fuel from PSO in bulk and stores the same in its own storage facilities. In order to reduce costs and overheads, Pakistan Railways in collaboration with PSO has decided to handover its storage facilities to PSO and purchase fuel on the spot. On completion, this project is estimated to bring another 10% reduction in fuel costs.

5. The HR strength of Pakistan Railways is being critically analyzed to bring it at a rational level. This step will result in reduction of salary bill and, in the long run, will reduce the overhead of pension payments. 1377 posts from Ministry of Railways, Headquarters office and extra division have been abolished, 720.551 Million per year savings are expected.

In order to improve the revenue streams, certain other steps have also been taken.

1. To reduce manual working, streamline financial operations and to minimize risk of ghost employees and pensioners, SAP based ERP system is under development to bring transparency and increase in revenue stream.

2. Short term leasing of land has been introduced instead of Long-Term Leasing to stay competitive in the market for increased revenue flow.

3. Railways passenger train fares and freight rates have been rationalized and are constantly being monitored based on supply and demand and volatile prices of fuel to generate more revenues.

Pakistan Railways (PR) acknowledges the challenging financial landscape, it has navigated in recent years. The Finances of PR for the past three years reveal a consistent trend of acute shortage in regular expenditures, primarily in areas such as salary, pension, and High Speed Diesel oil (HSD). This shortage has significantly impacted the budget available for addressing other expenses.

Pakistan Railways remains committed to implement cost-cutting measures and revenue optimization strategies to address its financial challenges. The austerity measures undertaken are crucial for the sustainability and financial health of the organization.
